Experienced in agile methodologies, collaborating effectively in group projects, and continuously enhancing interpersonal skills. Thrives in dynamic tech environments, with a passion for learning and a drive to create innovative web solutions that deliver exceptional user experiences. Ready to contribute expertise and drive project success.

PROJECT DEVELOPMENT

Full Stack Web Developer – airebnb   Jul- 2023

Academic Experience. Henry Bootcamp

This application was designed to connect property owners throughout Argentina with travelers seeking a home-like experience.

The Stack: Vite, TypeScript, Tailwind CSS, PostgresSQL, Sequelize, Node.js, Express, Auth0, NodeMailer, Cloudinary, GoogleMaps, Mercado Pago, other libraries and frameworks.

https://github.com/MercedesPoisson/Airebnb_Complete_Project

My greatest contribution was not only as a developer but also as a seasoned team player. I employ my extensive experience in teamwork to lead the group with Scrum and Agile methodologies, ensuring efficient and timely achievement of our objectives.

Full Stack Web Developer – Foodie Lovers   Jun- 2023

Academic Experience. Henry Bootcamp

The purpose of this application was to create a website where users could access a wide variety of recipes, filtering them by diet types, ingredients, or name. Users may also create and share their own recipes.

The Stack: React, JavaScript, CSS, PostgresSQL, Sequelize, Express, Spoonacular API.

https://github.com/MercedesPoisson/FOOD_FOR_DEPLOY

I built this app from scratch, although it was a solo project, I implemented tools to schedule development timelines into different sprints. Starting with the database, I proceeded to the back end, and finally, the front-end layout.

JOB EXPERIENCE

Data Analyst   Feb-2009 | May-2022

Federal Administration of Public Revenue (AFIP), Buenos Aires, Argentina

- Researched and resolved issues regarding integrity of data flow into databases.
- Extracted and interpreted data patterns to translate findings into actionable outcomes.
- Conducted research, gathered data from multiple sources and presented results.

General Manager Assistant   Mar-2006 | Jan-2009

ING, Buenos Aires, Argentina

My role was to provide strong daily executive support for the management, using my administrative and organizational skills to ensure efficient operations across different departments. I had a keen eye for detail, allowing me to effectively oversee multiple tasks such as budget management, presentations, and report generation, scheduling tasks, organizing agendas, coordinating appointments, and managing itineraries.
